OBJECTIVE

Final-year B.E. student in Artificial Intelligence and Data Science, passionate about machine learning, web development, and data management. Seeking opportunities to apply my skills in Python, JavaScript (React, Node.js), and AI-driven solutions to build impactful, innovative applications.

EXPERIENCE

Data Visualization Intern

Virtual Internship (TATA)

January 2025

- Gained proficiency in Power BI for data visualization. Created interactive visuals for real-world datasets, improving data interpretation skills.

Web Development Intern

Zaalima Development

April 2025 - July 2025

- Designed and developed a fully responsive e-commerce website for a clothing brand, enhancing user experience and streamlining the online shopping process.

EDUCATION

Bachelor of Engineering in Artificial Intelligence and Data Science

Rajiv Gandhi Institute of Technology (Current CGPA: 7.83)

2022 - PRESENT

College in HSC

Vallia College of Art's and Science (Scored 69%)

2020-2022

High school in SSC

Gyan Kendra Secondary High School (Scored 79%)

2020

CERTIFICATIONS

Supervised Machine Learning: Regression and Classification (Coursera)

Generative AI (Google Cloud)

Web Development (Udemy)

PROJECTS

AI-Powered Notes App(Web-Development)

Developed a full-stack AI-powered Notes App using React, Node.js, Express, and PostgreSQL. Implemented AI-based text summarization to generate concise summaries of user notes. Designed a responsive, dark mode-enabled UI with Tailwind CSS and built RESTful APIs for efficient CRUD operations. Ensured seamless frontend-backend communication using React Router and Axios, providing a user-friendly and scalable solution.

AI/ML-Based Nutrition Expert

Designed and implemented an AI-driven diet recommendation system to provide personalized nutrition advice based on user inputs (e.g., weight, age, fitness goals, vegetarian diet and non-vegetarian diet)

Utilized Python and machine learning algorithms to predict diet plans, protein requirements, and water intake.

Developed a user-friendly interface to enhance accessibility and usability for individuals aiming for fitness goals.

SKILLS

- Programming Languages: Python, JavaScript, C++, SQL
- Data Management Skills: MySQL, PostgreSQL
- Data Visualization Skills: Power BI
- Technical Skills: APIs, Web Services, React.js, Express.js, Node.js, Data Cleaning, Preprocessing, Machine Learning
- Interpersonal Skills: Team Management, Communication, Problem-Solving

VOLUNTEERING

Head of Operation , CRID

Managed event logistics and operations; coordinated with industry professionals for successful event execution.

Event Manager , Entrepreneurship Cell

Organized startup-focused events in collaboration with CEOs, handled planning, communication, and execution.
